

IsScaleEqual

```
graph LR; A[IsScaleEqual] --> B[CExpan::getScale]
```

A diagram showing a call from the function `IsScaleEqual` to the function `CExpan::getScale`. The `IsScaleEqual` box is shaded gray, and the `CExpan::getScale` box is white. A blue arrow points from the right side of the `IsScaleEqual` box to the left side of the `CExpan::getScale` box.

CExpan::getScale
